EDUCATION

- VIT Bhopal University** *B.Tech in Computer Science and Engineering* September 2022 – Present
- CGPA: 8.52/10.00
 - Coursework: DSA, Artificial Intelligence, Machine Learning, DBMS, Operating Systems, Computer Networks
- Indian Institute of Technology Madras** *BS in Data Science and Applications* January 2023 – January 2024
- CGPA: 6.57/10.00
 - Coursework: Data Science, Probability & Statistics, Learning Algorithms

TECHNICAL SKILLS

Programming Languages: Python, C++, Java, SQL
Frameworks & Tools: Power BI, Excel, Git, GitHub, Jupyter, Google Colab, VS Code
Libraries: NumPy, Pandas, Matplotlib, Tensorflow, ScikitLearn, Keras
Relevant Coursework: Machine Learning, OOPs with C++ & Java, DBMS, Operating Systems, Computer Networks

EXPERIENCE

- Data Analyst** December 2024 – March 2025
BluePlanet Infosolutions Pvt Ltd
- Collaborated with the analytics team to clean, preprocess and analyze massive datasets in Python (Pandas, NumPy) and SQL to generate relevant insights for client dashboards.
 - Created interactive visual reports with Power BI and Matplotlib, increasing reporting efficiency by 30%.
 - Conducted EDA on financial and customer datasets across 3+ industries, marking out important trends and 10+ anomalies that guided high-impact business decisions.

PROJECTS

- Predicting Profits for different startups** | *Python, Regression Models*
- Built and validated 5 regression models on R&D, marketing and administrative costs, enhancing financial forecasting accuracy, revenue optimization and business intelligence insights.
 - Optimized data analysis by 30% through Python libraries (Scikit-Learn, Pandas) for efficient model building.
 - Provides data-driven insights for financial planning by analyzing multiple regression models, ensuring optimal financial forecasting with over 85% precision.
- Image Captioning using AI** | *Neural Networks, NLP, AI & ML*
- Designed and trained a hybrid deep learning model combining CNN (for image features) and LSTM (for sequence generation) for image captioning.
 - Integrated Natural Language Processing and achieved 90% caption accuracy using TensorFlow and Keras.
 - Improved caption generation relevance by 20% via tuning model layers and embedding parameters.

CERTIFICATES

- Python for Data Science and Machine Learning Bootcamp, Udemy**
- Mastered data analysis and machine learning with Python libraries like NumPy, Pandas and TensorFlow.
- Introduction to Generative AI, Google Cloud**
- Completed hands-on training in Generative AI and familiarity with cloud-based AI development tools and platforms like GCP.
- Applied Machine Learning in Python, Coursera**
- Explored data clustering, predictive models and feature building for machine learning analysis.

ACHIEVEMENTS AND AWARDS

Badminton & Swimming: State-Level Swimming & District-Level Badminton Medalist
State Talent Search Examination: Ranked among the top 5% of candidates nationwide.
National Mathematics Olympiad: Awarded Gold Medal in National Mathematics Olympiad.
